

MANTRA MANAN SARASWAT

Product Manager | AI, SaaS, B2B

+91-8619153815 • mantra.manan@gmail.com • [LinkedIn](#) • [Notion - Extended Bio](#)

Summary

Product Manager with **4 years** of experience across product, growth, sales, and strategy, leading engineering-driven B2B teams to build **developer-focused** and **AI-powered** products. Skilled in customer-centric roadmapping and ruthless prioritization, delivering **secure enterprise** solutions that have realized **\$1M+** in ARR. Experienced in both 0-to-1 discovery and 1-to-10 growth, with focus on product strategy, market research, and scaling—ensuring alignment between product vision and business goals to drive long-term value.

Key Achievements

- **AI Voice Agents for Healthcare**
Built the first version of AI voice agents and customer dashboard, leading branding and AI voice demos to secure 4 pilot customers in US healthcare.
- **US Telehealth Product Strategy**
Developed product strategy, built healthcare accessibility features, implemented HIPAA, and enabled accounts worth \$1.5M to go live.
- **Increased Engagement Rate**
Boosted Instagram engagement from 0.53% to 1.89%, gaining 120K+ followers in one year via 10+ campaigns.

Experience

- **100ms**
Abu Dhabi, San Francisco and Bengaluru
AI Product Manager
11/2024 - Present
100ms.ai: On a -1 to 1 journey, building **Agentic AI** for **US Healthcare**.
 - Collaborated with the co-founders to validate the **\$20B+** market opportunity of automating healthcare provider workflows using AI.
 - Conceived and productized the **first version** of *Customer-facing Dashboard* and *AI Voice Agents* for *scheduling* and *benefits checks*, with EHR integrations tailored for health systems and ASCs.
 - Led branding, website, and demo design for the new product line, scripting *AI voice demos* for US Health tech events, securing **4 pilot customers** with an estimated total account size of **\$800K**.**Technical Product Manager**
04/2023 - 10/2024
100ms.live: CPaaS – **Live video APIs** enabling video conferencing and live streaming integration within apps, handling usage of over a **billion minutes** per month.
 - Led product strategy and execution, GTM, pricing, and monetization for **15+** features and products, overseeing their entire life cycle.
 - Developed the product strategy for **US Telehealth**, built accessibility features like *Closed Captioning* and *SIP Calling*, and one of the most robust implementations of **HIPAA** in CPaaS, enabling accounts worth **\$1.5M** to go-live with 100ms; fueling a pipeline of \$5M+.
 - Led the company's **first AI initiative**, transforming an internal side project—*speaker-labeled transcription* and *AI-generated summaries*—into a revenue-generating product, achieving **190x** usage by 3rd month.
 - Live Streaming Enhancements**: Delivered **8 features** (*RTMP-In, VOD, Live Transcription, Virtual Background*) for top **enterprise accounts**.
 - Shipped *Collaborative Whiteboard*, a persistent customer ask which immediately converted deals worth **\$70K**.
 - Authored product blogs, newsletters (**30% open rate**), use case/migration guides, and technical documentation to drive discovery, adoption, and re-engage leads via the *Self-Serve dashboard*.**Growth Lead**
05/2022 - 03/2023
Supported the COO on key projects spanning product marketing, sales, investor relations, and operations.
